## SUMMARY

Final-year Computer Engineering student with experience in full-stack and mobile application development. Skilled in building scalable software solutions using **Java, Spring Boot, React.js, Flutter, and AWS**. Strong foundation in **Data Structures & Algorithms, Object-Oriented Programming, and database systems**.

## SKILLS

**Programming Languages:** Java, JavaScript, TypeScript, SQL, C#, Dart

**Frontend/Mobile:** React.js, Vue.js, HTML, CSS, Tailwind CSS, Flutter

**Backend:** Node.js, Express.js, JDBC, Spring Boot, REST APIs, OOPs, MVC Architecture, Authentication, Database Transactions

**Databases:** PostgreSQL, MySQL, SQL Server, MongoDB, DynamoDB

**Cloud & DevOps:** AWS (Lambda, API Gateway, DynamoDB, S3, EC2, RDS, VPC, CloudFormation, CodePipeline, CodeBuild), CI/CD

**Testing & Tools:** Jest, Git, GitLab, Postman, Jira

## EDUCATION

**B.Tech, Computer Engineering — MIT Academy of Engineering, Pune**

**CGPA: 9.72**

*Best Outgoing Student (CE Dept.) • 2nd Year Topper (CE Dept.) • 3rd Year 2nd Topper (CE Dept.)*

## EXPERIENCE

**Software Development Intern — ElasticRun, Pune**

**Jan 2026 – May 2026**

- Developed and maintained production-grade Flutter applications using BLoC architecture, reusable widgets, and REST API integrations.
- Collaborated with backend engineers to integrate applications with microservice-based systems, ensuring reliable end-to-end functionality.
- Resolved production issues and contributed to a shared Flutter core package, improving code reuse and application stability.

**Software Engineer Intern — Kreeda Labs, Pune**

**Aug 2025 – Dec 2025**

- Completed hands-on training by building full-stack applications using React, TypeScript, Node.js, Express.js, and Jest.
- Developed and maintained **25+** web scraping scripts using Python, BeautifulSoup, and Selenium.

## PROJECTS

**Multi-Vendor E-Commerce Backend | C, .NET 10, ASP.NET Core Web API, Entity Framework Core, SQL Server**

**2026**

- Architected **asynchronous** Service and Repository layers using async/await for scalable request processing.
- Implemented **JWT-based** authentication, authorization, and secure checkout workflows.
- Designed transactional onboarding processes using **SQL Transactions** for data consistency.
- **GitHub:** [github.com/Amrik-Bhadra/Ecommerce-Backend-CSharp](https://github.com/Amrik-Bhadra/Ecommerce-Backend-CSharp)

**DoubtAdda — Cloud-Native Deployment | React.js, Node.js, AWS**

**2025**

- Designed and deployed a **cloud-native serverless application** using AWS Lambda, API Gateway, and DynamoDB.
- Implemented **end-to-end CI/CD pipelines** using AWS CodePipeline and CodeBuild for automated build and deployment workflows.
- Built scalable and secure cloud infrastructure following AWS best practices for serverless application deployment.
- **GitHub:** [github.com/Amrik-Bhadra/doubtadda\\_aws\\_cicd](https://github.com/Amrik-Bhadra/doubtadda_aws_cicd)

**QuickLink — URL Shortener | Java, Spring Boot, PostgreSQL, React, TypeScript**

**2025**

- Designed and developed a scalable URL shortening platform supporting custom aliases, URL expiration, and analytics.
- Developed RESTful APIs using Spring Boot and Spring Data JPA following layered architecture principles.
- Integrated PostgreSQL for persistent storage and optimized URL lookup performance.
- **GitHub:** [github.com/Amrik-Bhadra/QuickLinkApp](https://github.com/Amrik-Bhadra/QuickLinkApp)

## ACHIEVEMENTS

- Smart India Hackathon 2024 Finalist
- Cavista Technologies Hackathon 2025 Finalist

## CERTIFICATIONS

- AWS Cloud Practitioner (CLF-C02) — AWS ([Link](#))
- Java Foundations Professional Certificate — JetBrains ([Link](#))
- MERN Stack Application Development — Techsakhsham ([Link](#))
